We will be attacking the websites of the Greek Police and the Prime Minister. They are directly responsible and we will directly respond. They will no longer be able to spread their lies to the media about what is going on in the streets. You can either load the file on the day of the action or download it ahead of time. We suggest downloading it ahead of time in the event that our site get shut down. Please download the file you will need from one of the following mirrors we have set up. When the time comes, open it in your web browser (ie Firefox, Safari, Internet Explorer) and help us take them down! This action is part of a series of actions that will unfold over the next few weeks, targeting those who participate in and benefit from oppression
